21st June 2017

USE notes with grave concern the news of the arrest of a radicalised individual and the issuance of a restriction order on his colleague on 20th June 2017. Both men are from AETOS, a unionised company of USE.

The union stands fully behind our authorities in the fight against terrorism. The threats posed to Singapore and Singaporeans are real and troubling. We must never let our guard down.

At the same time, we urge Singaporeans to continue to support all our security officers in spite of this incident. Our officers have been and are committed to the security of the premises and lives they look after. Together with the community, we must maintain our vigilance and help watch out for each other.

Thank you.

President
Union of Security Employees
